Issue Tracker Statistics

- Total Issues: 61
- Total Closed: 46
- Total Open: 15
- Issues per member: About 11
 - We practiced pair programming so many issues were opened and closed by two members.

Unit Test Statistics

- Total Unit Test: 116 (Our Unit Test)
 - Unit Test Per Member: 23.2
- Total Unit Test For Other Group API: 132
 - All Done by Nathan Heskia

Critique Of Our Website

- What did we do well?
 - a. Search Feature is very well implemented
 - b. Site is very mobile friendly for accessing on the go
- What did we learn?
 - a. Use models to display data from database. Styling comes along for free.
 - b. Embed pages within pages to derive styling and practice SOLID.
- What can we do better?
 - a. Add more color for style and brand recognition
- What puzzles us?
 - a. How to acceptance test a website?
 - b. CSS is very picky and cryptic
 - c. PythonNoWhere???

Critique Of Another Group Website

- What did they do well?
 - a. Very well organized Artist Page
 - b. Very user friendly. Pages contain relevant data
- What did we can learn from their website?
 - a. We should add a page footer
- What can they do better?
 - a. Add more images to the splash page. Make use of Bootstrap Carousel
 - b. Style the dynamic lists that come back from the database with CSS/JS
- What puzzles us about their website?
 - a. Stability... Possibly due to PythonAnywhere
 - b. Search and About Us not implemented at time of critique
